Forecast For Northeast England
Issued by Met Office Exeter
at 0400 on Sunday 25 Jul 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Cloud clearing to warm sunny spells.

Today:
Early low cloud should thin and largely clear to leave a dry day with some warm sunny spells. Low cloud and mist may perhaps return to coastal districts late in the afternoon. Light onshore breezes. Maximum temperature 24 deg C (75 deg F).

Tonight:
Low cloud should thicken and become more extensive into the evening, perhaps giving the odd spot of light rain or drizzle in places. Mild, with light winds. Minimum temperature 10 deg C (50 deg F).

Monday:
Murky to start, but this will clear to warm sunshine once again. This is likely to spark some slow-moving heavy downpours in places later, perhaps thundery with hail. Light winds. Maximum temperature 28 deg C (82 deg F).

Outlook for Tuesday to Thursday:
Unsettled through this period, with showers and some longer spells of rain. Temperatures largely below average, in marked contrast to the week just gone.
